DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Amendment/Arguments

2. The rejection of claims 6, 27-29 under 35 USC § 101 is withdrawn in response to Applicant's amendment to the claims.

Claim Rejections - 35 USC § 112

3. Claims 6, and 27-29 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. (Written Description).

The instant claims were amended to recite "the presence or absence of a particular nucleotide at at least one of positions 1-19 of a sense sequence within the sense region, wherein the sense region is 20-30 bases..."

According to Applicants since there are only 76 possible independent variables (4^{19}) for these positions, and that Applicants have disclosed thirty-seven specific variables in formulas VII and IX that refer to the presence or absence of a particular base at a particular position, the instant rejection should be withdrawn. Contrary to Applicant's assertions, it is unclear how Applicant's disclosure of thirty-seven specific variables in formulas VII and IX in the specification as filed is intended to provide evidence that Applicant's were in possession of algorithms for correlating the ability of

an siRNA molecule to silence any target gene by assaying for the presence or absence of **any** particular nucleotide at at least one of positions 1-19 of a sense sequence with the sense region of the siRNA molecules within a plurality of siRNA. Moreover, the instant claims are not limited to Formulas VII and IX, therefore the scope for the instant claims read on a potential 39 additional variables that are not described in the specification as filed.

Furthermore, it is noted that the features upon which applicant relies (i.e., namely Formulas VII and IX) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

4. Claims 1 and 38-60 are free of the prior art.
5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
